

V INTERNATIONAL MEETING ON LIVING DONOR LIVER AND KIDNEY TRANSPLANTATION

Program

ORGANIZE:

Hospital Clinic

Liver Transplant Unit

Renal Transplant Unit

Transplant Coordination

V International Meeting on Living Donor Liver and Kidney Transplantation

Barcelona (Spain) November 21st 22nd, 2007

Dear friends and colleagues,

Living donor kidney and liver transplantation continues to be a controversial issue to date.. Although the use of this type of organ transplantation is becoming more and more popular, this wide use involves, not only the development of the necessary surgical skills to do it, but also the need to develop awareness of the significance of this complicated process, inside or outside of the operating room, whether from the renal or the hepatic point of view.

Thus the necessity to continuously evaluate the results achieved in the donor and the recipients side. The **V International meeting on living donor organ transplantation** will be specifically focused in promoting living organ donation and transplantation as well as evaluating the current results of the literature. This will be done by the most outstanding leaders of the world.

Specifically, the role of the transplant coordinators , as well as the different models of organ living donation worldwide will be analysed. Controversial issues, such as laparoscopic donor nephrectomy with regard to kidney, or recurrence of HCV after transplantation with regard to liver, will be studied.

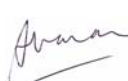

Perhaps the most interesting aspects of this new course is that we include the transmission of two live procedures; an adult kidney and liver transplantations. Those very long procedures will be inserted during the development of the program, so that the most interesting parts of both operations could be easily viewed by the audience, without having to stand for the whole operation.

Although it is widely acknowledged that living donation has emerged as an efficient means to help in reaching the highest number of patients, the Hospital Clínic, pioneer in Spain in this type of procedures, maintains its commitment and responds to the need for continued evaluation and maximum transparency, allowing the Society and the Scientific community to verify the advances achieved during this period as well as evaluate the problems associated to the whole process.

In this occasion, the Hospital Clínic together with the Catalan Transplant Organization (OCATT) and the National Transplant Organization (ONT), under the patronage of the Department of Health of the Government of Catalunya, would like to give you a warm Welcome to Barcelona in the sureness that you will be getting, in this two days meeting, an overall view of living donation to date and its role in organ transplantation in the near future.

V International Meeting on Living Donor Liver and Kidney Transplantation

Barcelona (Spain) November 21st 22nd, 2007

Scientific Program / Liver

KEY ISSUES

1. **Retransmission of two live procedures**
Retransmisión de dos procedimientos en directo
2. **Interactive Sessions on: Cases of the Real World**
Sesiones interactivas: Casos clínicos reales
3. **Hands on Computer:**
 - **A total of 10 computers with 4 complete procedures (donor and recipient) will be available. Specific place will be open during the whole course.**
Prácticas en el ordenador: 10 ordenadores con 4 procedimientos completos (receptor y donante) estarán disponibles. Habrá un lugar habilitado durante el curso
 - **Donor long term function**
Función en el donante a largo plazo
 - **Immunetolerance** / Inmunotolerancia

Besides, / Además

For liver, / Hígado

4. **HCV cirrhosis and LDLT** / Cirrosis por HVC y VCH
5. **HCC in LDLT** / HCC en THDV
6. **"Small for size" syndrome. Physiopathology and experimental models.**
Síndrome de "SFS". Modelo experimental y fisiopatología.
7. **Results of the NIH collaborative study "A2ALL"**
Resultados del estudio A2ALL del NIH
(Instituto Nacional de la Salud)

For Kidney, / Riñón

8. **ABO incompatibility.** / Incompatibilidad ABO
9. **Right kidney living donor** / Donante vivo con riñón derecho
10. **In severe vascular disease** / Enfermedad vascular grave

Registration:

Surgeons interested in the Premeeting Course should specifically register, since only 10 computers (2 people per computer) will be available, in each type of procedure (kidney and liver)

Los cirujanos interesados en el Curso Pre-Reunión deberán registrarse puntualmente ya que sólo estarán disponibles 10 ordenadores (2 personas por ordenador para riñón e hígado)

V International Meeting on Living Donor Liver and Kidney Transplantation

Barcelona (Spain) November 21st 22nd, 2007

Scientific Program / Liver

WEDNESDAY November 21st

Pre-meeting Course on "Hands on Computer"
Curso Pre-Reunión "Prácticas en el ordenador"

9:00-13:00

Introduction to "Hands on Computer"
Individually review of 4 complete and
detailed indexed operations.
Revisión individual de 4 intervenciones
completas.

Each procedure will include real time
Intervention/ Cada Intervención es a tiempo real.

For Liver / Hígado

Donor operation:

Intervención Donante

1. Operative evaluation /
Evaluación intervención
2. Right liver isolation/
Aislamiento lóbulo derecho
3. Parenchymal Transection/
Transección del parénquima
4. Closing procedure / Proceso de cierre
5. How to avoid problems (portal vein kinking,
excessive hilum dissection, etc...) / Cómo
evitar complicaciones (disección excesiva
del hilio, torsión de la vena porta, etc.)

Recipient operation:

Intervención Receptor

1. Hepatectomy / Hepatectomía
2. Liver implantation / Implante de Hígado
Portal vein anastomosis /
Anastomosis vena porta
Hepatic artery anastomosis /
Anastomosis arteria hepática
Bile duct anastomosis /
Anastomosis vía biliar
3. Hemodynamics during the procedure
Estudio hemodinámico
4. How to avoid problems (adequate
venous drainage, excessive portal blood
flow, etc...) / Como evitar complicaciones
(drenaje venoso adecuado, flujo portal
excesivo, etc.)

13:00-15:00

Lunch / Comida

V International Meeting on Living Donor Liver and Kidney Transplantation

Barcelona (Spain) November 21st - 22nd, 2007

Scientific Program / Liver

WEDNESDAY November 21st –

17:30-18:30

Clinical Cases / Casos Clínicos

Chairpersons / Moderadores:

J. Vilardell (Barcelona)

Pal-Dag Line (Oslo)

Clinical cases / Casos clínicos **Kidney/ Riñón**

Kidney. European / Riñón en países Europeos

Pal-Dag Line (Oslo)

Kidney. Non European / Riñón en países no Europeos

R. Merion (Ann Arbor)

Clinical cases / Casos clínicos **Liver/ Hígado**

Liver European / Hígado en países Europeos

M. Navasa (Barcelona)

Liver Non European / Hígado en países no Europeos

G. Testa (Chicago)

Session 2.

**Immunological aspects of living donation and
transplantation**

Aspectos inmunológicos de la donación y el trasplante de vivo

Chairpersons / Moderadores:

M. González Molina (Málaga)

R. Charco (Barcelona)

18:30-19:30

ABO incompatibility / Incompatibilidad ABO

19:30-19:50

Kidney / Riñón

F. Oppenheimer (Barcelona)

19:50-20:10

Liver / Hígado

R. Troisi (Gante)

V International Meeting on Living Donor Liver and Kidney Transplantation

Barcelona (Spain) November 21st 22nd, 2007

Scientific Program / Liver

THURSDAY November, 22nd

RETRANSMISSION OF A LIVE PROCEDURE ALTERNATIVE CONNECTIONS TO FOLLOW THE WHOLE PROCEDURE

Retransmisión de un procedimiento en directo
Conexiones intermitentes para el seguimiento del proceso completo.

- Session 3.** **Evaluation of the living donor**
Evaluación del donante vivo
Chairpersons / Moderadores:
C. Fondevila (Barcelona)
J. R. Ayuso (Barcelona)
- 8:00-8:20 **“All in one” exploration.**
Exploración complementaria “todo en uno”
Magnetic resonance vs. multiplanar helicoidal TAC
Resonancia magnética vs. TAC multiplanar helicoidal
J. R. Ayuso (Barcelona)
- 8:20-8:40 **Liver biopsy. Is it really needed ?**
Biopsia hepática: Es realmente necesaria?
A. Rimola (Barcelona)
- 8:40-9:30 **Clinical Cases / Casos Clínicos**
Clinical Case 1 / Caso Clínico 1
Portal vein variability – R. Troisi (Gante)
Variabilidad de la vena porta
Clinical Case 2 / Caso Clínico 2
Biliary tract variability – M. Malagó (Essen)
Variabilidad tracto biliar
Clinical Case 3 / Caso Clínico 3
Hepatic artery anomaly – F. Pardo (Pamplona)
Anomalía arteria hepática.
- Session 4.** **Recipient Considerations.**
Consideraciones del Receptor
Chairpersons / Moderadores:
M. Navasa (Barcelona)
F. Pardo (Pamplona)

V International Meeting on Living Donor Liver and Kidney Transplantation

Barcelona (Spain) November 21st 22nd, 2007

Scientific Program / Liver

THURSDAY November, 22nd

- | | |
|-------------|--|
| 9:30-9:45 | Preparing the patient for transplant. The Kidney function (HRS Type I and Hyponatremia) and LDLT.
Preparación del paciente para el trasplante. Función renal en la donación en vivo (HRS tipo I e hiponatremia)
M. Navasa (Barcelona) |
| 9:45-10:00 | Clinical Case 4 / Caso Clínico 4 |
| 10:00-10:15 | HCV Cirrhosis- Pre-Transplant Treatment.
Cirrosis por HVC. Tratamiento pre-trasplante.
X. Forns (Barcelona) |

V International Meeting on Living Donor Liver and Kidney Transplantation

Barcelona (Spain) November 21st 22nd, 2007

GENERAL INFORMATION

Meeting Venue:

Hotel: **Hilton Barcelona Hotel**

Avda. Diagonal 589-591 / 08014 - Barcelona

Organizing Secretariat:

OASIS VIAJES Y CONGRESOS, S.A. Director:

Luis Micieces

C/ Sor Ángela de la Cruz, 8

28020 Madrid – Spain

Tele: +34 91 555 11 19 - Fax: +34 91 555 35 81

E-mail: congreos@viajesoasis.com - Web: www.viajesoasis.com

Information: All attendees must be registered. The organization kindly requests people attending the meeting to wear the badge to admission to the scientific sessions.

Policy of Cancellation of Registration: All cancellations must be made in writing to the Secretariat. The refunds will be made after the meeting, cancellations made before 20th September having a refund of 75 % of the amount paid. No refund after mentioned date.

Exhibition: Be sure to visit the exhibition during the meeting, informative and important components of this event provide you with a valuable opportunity to meet representatives from various International Companies that are committed to the field of the Hepatology and Nephrology Living Donor Transplantation.

Multimedia Lounge: This room will be provided for speakers and presenters to prepare for their presentations. All speakers should check into this room with a minimum of one hour prior to starting the sessions. The meeting will provide standard audiovisuals equipment for PowerPoint presentation in all sessions.

Meeting Language: English is the official language of the Meeting. All slides must be produced in the mentioned language.

Cameras and Cell Phones: No cameras or video cameras will be allowed during the meeting. As a courtesy to fellow attendees kindly turn off cell phones.

Certificate of attendance: This will be available for participants who request it at the Secretariat desk.
